

Andrew Davidson & Co., Inc.'s LoanDynamics Models Empowers Fite Analytics' MBS Analytics Service

FOR IMMEDIATE RELEASE

New York, NY, November 24th, 2020 -- [Andrew Davidson & Co., Inc.](#) (AD&Co), is proud to support Fite Analytics' innovative cloud-native Mortgage-Backed Securities Analytics Service. The Fite Analytics solution incorporates AD&Co's LoanDynamics models that provide forecasts of voluntary prepayments, defaults and losses that drive risk analytics across the mortgage-backed securities market with comprehensive coverage.

Geoff Fite, Chief Executive Officer at Fite Analytics, said: "AD&Co is a critical complement to our business. Financial institutions would like more choice when performing capital markets analysis, and together we have achieved a world-class service. AD&Co's industry-leading advanced modeling helps Fite Analytics provide a level of coverage, quality and speed that other providers cannot match."

Michelle Stepien, Manager of Vendor Relations for AD&Co, said: "Fite Analytics provides a robust, streamlined, cost effective solution for assessing risk across the full spectrum of asset classes. AD&Co is pleased to provide our market leading models and analytics to assess the risk of US mortgages and mortgage-backed securities to the Fite platform."

About Fite Analytics

Based in Los Angeles, Fite Analytics is a privately held corporation founded in 2016 to provide leading edge data processing and analytics services to institutional investors by including comprehensive global market data, ultra-high-speed analytics, and implementation-free cloud-native technology.
