

EDI Empowers Fite Analytics' Bond Analytics Service with Terms and Conditions

London, Los Angeles, 6 October 2020 –EDI is proud to support Fite Analytics' innovative cloud-native Bond Analytics Service. The Fite Analytics solution incorporates EDI's terms and conditions to provide analytics across all sectors of the bond market, for corporate, government and government agency issuances.

In addition to the T&Cs, the solution is powered by EDI's corporate actions which focus on providing detailed and timely information on current events such as Interest Payments, Conversion, Bankruptcy, Securities in Default.

Geoff Fite, Chief Executive Officer at Fite Analytics, said: "EDI has been a vital partner to our business. Financial institutions would like more choice when performing capital markets analysis, and together we have achieved a world-class service. EDI's speed and customer-first approach helps Fite Analytics provide a level of service and support that the mega-providers cannot match."

Jonathan Bloch, Chief Executive Officer at EDI, adds: "We are pleased that Fite Analytics has launched their Bond Analytics Service. This area of the market has been ill served by existing providers who are expensive and inflexible. They need competition and Fite Analytics will provide this in abundance. It is a compliment to Geoff Fite's leadership that a leading Tier 1 bank and custodian has subscribed to the service.
